Subject: SB650 Perfect for Stalkers

This is so poorly written, its perfect for a stalker. All they have to do is say someone is a threat to them, then the police go to the home of the victim and remove any firearms the victim may possess to defend themselves once the officers have left, now the stalker can walk into a nice safe environment to do as they wish to the victim. Brilliant

Why is there no provision for the return of the firearms to innocent victims. Yes I did call them victims because this law will be fraudulently used time and time again. Provisions need to be made to return the firearms to the victim as soon as possible and a provision with equal penalties for falsely filing for these orders also need to be included.

This bill is so blatantly unconstitutional.....

If you truly believe this will save lives your fools. The weapon will change, until you our elected officials get off your duff and do something about getting people mental health treatment you will accomplish nothing except a false sense of feeling good about yourselves.
